### **Contact Question –**

*This was received on February 7, the day after the 1114 committee ruling. We have received dozens of similar letters. If you haven't joined DP3, now is the time.*

On the last day of January, the CEO of an accounting firm, an experienced financial litigator and a lifelong friend was doing my tax return. After he finished, he brought up the subject of Delta's bankruptcy. After some discussion, he said, "The pilots better have some super representation before the court because it is out of Delta's hands and these courts are entirely unpredictable. Sometimes they seem to lean heavily toward the drastic. Be prepared."

Thanks to you people, I feel we are well represented.
